- The students must be enrolled at least in the second year of higher education studies.
- The study period abroad must be part of the student's study programme and to ensure high quality mobility activities with maximum impact on the students, the mobility activity has to respond to student degree-related learning and personal development needs to complete a degree.
- The students must complete and submit the online participant report (survey) within 30 days from the end date of the mobility period.
- If the student doesn't meet all Erasmus+ Scholarship conditions and fails to complete and submit the Learning Agreement, Grant Agreement and Participant Report the student will need to fully reimburse the financial support received.
- This first payment is based on the dates that the student enters in Mobility Online Erasmus+ Scholarship application form and equals 70% of the total estimated grant based on these dates.
- Before your study abroad period ends the student needs to fill out and upload some additional documents. Based on the exact dates filled out in the Transcript of Records the final payment will be re-calculated and the final payment will be done (final amount for the whole period minus the first amount paid).

Amount per day	€ 13	€ 11	€ 9

Additional scholarships:

- There are additional scholarships for students with:
 - ✓ Economic circumstance
 - ✓ Health circumstance
- Students that meet the requirements will be able to get an additional scholarship of €250 per month (or €100 - €150 in case of a short-term mobility of max. 30 days). Read [our website](#).
- For example for a stay of 5 months in Spain, this means 5 x €250 on top of the abovementioned scholarship. In total this student would therefore be eligible to €1.650 + €1.250 = €2.900.*
- It can be that with the Erasmus+ basic scholarship and the Erasmus+ additional scholarship (€250 per month) it is still not possible to go abroad due to a health circumstance and that your situation requires extra financial support. In that case you can apply for an extra health circumstance scholarship. In the Erasmus+ application procedure in Mobility Online you are able to request this funding for an indicative amount. Afterwards you will be contacted to provide the necessary supportive documents. The amount will be based on real costs and approved documents for real expenses. These indicative expenses need to be assessed by the Dutch National Agency for Erasmus+ before Fontys can approve it, and the receipts / invoices will be assessed after your mobility for a final approval. You can read more on [our website](#).
- Green travel: students of Fontys that use train, bus or carpool on their 2-way trip to their destination will get €50 extra Erasmus+ scholarship. Next to that they will get up to 4 extra days of Erasmus+ scholarship for the possible extra travel days. The amount per extra day is calculated as per the table above and includes a possible additional scholarship.
